Note
 The above information should be written as they are found in the ARI directories / operating manuals. The ARI rated SEER will be the SEER used to determine incentives. Please check that your choice of equipment is an ARI certified match.

Signature
 I certify the information provided above is accurate.

Members Signature: _____ Date: _____

Note: Incentive payment may be subject to on site verification upon discretion of Parke County REMC. It is my understanding to qualify for the rebate I am allowing the install of a load management switch that may be subject to operation for load reduction. I also understand if I remove or request the switch be removed, I will be billed the amount of the rebated to be paid within thirty (30) days after the switch is removed.

Rebate must be submitted with all relevant information within 120 days of install completion date.
